1/2 Size

Canard

Main Wing

Glider Hook  
(for pod attachment)

Pylon 3/16" tall x 3/32"  
spruce or  
1/4" tall 1/8" hard Balsa

The cast resin HOOK  
parts need to be glued  
on using  
Cyanocarylate (CA)  
Glue.  
White glue or plastic  
glue will not bond to  
them, and epoxy is not  
well suited either.  
Contact Cement will  
work.  
Avoid getting glue into  
the interface portions  
of the hooks

Pod Hook with  
Side Plates
